

Submitter: Wynde Dyer
On Behalf Of: Self
Committee: Senate Committee On Health Care
Measure: SB559

To whom it may concern:

I encourage a No vote on this bill. Leave veterinarians out of this. As someone with pain-causing complex chronic health issues who cannot take pain medications due to systemic allergies reactions to them, it would have complicated my medical file to have my the pain medication my service dog with bone cancer took, and would have add a layer of complexity to the work my low-income sliding-scale vet did to manage my dog's palliative care.

Thank you,
Wynde Dyer
