

Submitter: Paul Santos  
On Behalf Of: Santos Ranches Inc  
Committee: Senate Committee On Natural Resources  
Measure: SB85

We have been ranching 55 years here in Oregon and have seen some crazy bills get passed, not many that actually help agriculture but this one is totally ridiculous one of all.

It will destroy Oregon farms and the ranching system. It has been tremendously hard to survive with all the restrictions, high cost of operating, low payouts in our high quality livestock product that the consumer gets. It is inconceivable how a group of people can control the system, they wouldn't last a day in our boots.
