

Submitter: Judith Weir

On Behalf
Of:

Committee: House Committee On Emergency Management, General
Government, and Veterans

Measure: HB2904

I am just a regular citizen of Lincoln County, Oregon, and hold no professional degrees, but even I can see that any primate center using animals for research should be held accountable for its actions. I fully support the passage of HB 2904 in this regard. Personally, I feel that the Oregon National Primate Center should be closed permanently. Cruelty to animals is a crime in our state, and from what I have read regarding past allocations against the Primate Center, the people running this place should be charged criminally.

Thank you for reading my testimony, and hopefully HB 2904 will be passed.
