

Submitter: Kris Rees

On Behalf Of:

Committee: House Committee On Education

Measure: HB3068

Members of the Legislature,

There should be no question about passing HB3068! This opens up opportunities for many of our high school students for a better chance at life to be successful. With so many falling behind due to COVID, this is a door to help them on a path to success beyond high school--but a necessary step to get there. I encourage unanimous support for HB 3068.
