

Submitter: Rheama Koonce

On Behalf
Of:

Committee: House Committee On Emergency Management, General
Government, and Veterans

Measure: HB2904

To support this bill is the very least we can do to help the captive primates forced into a desperate life of research, cages and pain. One day we will look upon this brutal practice in shame, until then let us at least acknowledge the harm done and hold those responsible accountable for their heinous actions.
