

Submitter: Patricia Hine
On Behalf Of: 350 Eugene
Committee: Senate Committee On Natural Resources
Measure: SB85

Please pass the factory farm moratorium bill. We don't need more concentrated animal feeding operations in our state (or anywhere). They're bad for the animals, bad for the neighborhoods, bad for the environment. You would not want to live in one or next to one. We should be moving to plant-based diets and not surrendering our beautiful landscape to these hellscapes of suffering and disease. Thank you.
