

Submitter: Anastasia Brown

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB85

Please pass this bill for the moratorium on these big chicken farms. We all know the animals are not treated well and the outcome of these animals in our bodies is not nearly as good as free-range healthily raised chickens. Further, the impact on our local community will not be pleasant. This is inhumane for the birds as well as those whose communities are affected by these farms. Thank-you for your consideration.
