

Submitter: Heather Bonifield

On Behalf Of:

Committee: House Committee On Education

Measure: HB3068

Although compulsory school is a great fit for some, it often is overloaded with useless busy work that impedes the actual launch of some students into society as contributing adults. Let's keep the main thing, the main thing- educating students to enter adulthood. If they are ready, they're ready. Let's support HB 3068.

Thank you.
