

Submitter: Paul Heimowitz

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB85

In addition to supporting this important study, I also want to advocate for a moratorium on any new factory animal farms in Oregon. I do consume dairy and meat occasionally, so I'm not opposed to new small-scale farms for those commodities. However, large-scale industrial animal farming operations are at a scale that present significantly greater risks of animal mistreatment and environmental impact, and I don't think Oregon benefits from their expansion.
