Oregon has been a thing since about 1843....Lane was 1st Govenor in 1851 and we became a State in 1859.

Oregon was socially complicated , culturally you have to know rules were not equally enforced for a lot of reasons.

Today we have went from 170 yrs of law building.... to ignoring the laws we have made, (oh and apply privilege for certain people).

Yep I would love to see how Recidivism studies pan out.

I have that study for Lane co Jail from 2004

And I wonder if we have evolved ?
