Committee: House Committee On Agriculture, Land Use, Natural Resources, and
Water

Measure: HB3163

As part of the HB 5006 work Group I would like to submit an amendment to HB 3163. Add verbiage/language, in HB 3163 in Section 2, Subsection (D) to contain: Facilitates local water resources solutions, and by prioritizing the Local Basin Working Group product for meeting current and future water needs. Likewise, OWRD and other State Agencies will elevate, respect and work toward implementing the broad-based, solutions- oriented projects/enhancements for expansion of water management activities directed toward meeting current and future water needs to that specific Basin.

Also add local government to list of those eligible to be awarded grants.

Thank you for your support of Place-Based water planning and implementation.
