

Submitter: Linda Robinson

On Behalf Of:

Committee: House Committee On Early Childhood and Human Services

Measure: HB3240

I am a concerned tax-paying citizen who opposes this bill to use nameless cards for the SNAP and related programs. Human nature will lead to increased theft and unintended use with this practice and abuse of Oregon tax-payers dollars. Users could be compelled to be careful with their cards to avoid disruptions in service. I have known people using the SNAP program who've shared ways the card is already abused. Therefore creative methods to increase user responsibility is a much better use of our officials' time and energy and for Oregonians paying taxes. For lost cards, utilizing temporary "cards" with permanently marked identification would be better than issuing nameless cards. I ask you, please do not pass this bill. Thank you, Concerned Citizen on behalf of hard-working Oregonian tax-payers.
