

Submitter: Rose Kaler

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB854

I strongly oppose SB 854.

Our children are already struggling and Oregon's education is rated at almost the bottom of the 50 states. Lets focus on giving our children a good education. This bill would just provide more indoctrination and propaganda that would be used to shape the minds of our children. this is not Education, this is political. Keep this out of our schools..
