

Submitter: Rosa Tavaréz  
On Behalf Of:  
Committee: Senate Committee On Education  
Measure: SB49

my daughter has been swimming year round since the age of 8. She is 16 now and in those short 8 years she has bounced from team to team due to the lack of pool in the salem area .

It seems that while there are tons of swimmers in the salem area there just not enough year round swim team due to the lack of pools . While we have the Kroc Center with a nice community pool , that's just not enough for how many live in Salem let along the county .

The high school need their own pool or atleast have 3 options for their swim team to hold practice in a pool with cover area , heat and with proper water temperatures.

It's a shame that Salem as the capital can not provide this to our children . Not everyone can afford swim

Lessons at a young age but if high schools had a pool or once they could use for free they could take swim classes .
