

Submitter: Diane Luck

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB85

I STRONGLY support a moratorium on factory farming in my home state of Oregon. Factory farming causes pollution, health dangers, and perhaps most importantly, unspeakable suffering of animals. As Oregonians, this is NOT who we are or what we represent. PLEASE do not allow corporate greed to take over our farms. We should NOT have factory farms in Oregon.

Thank you.

Sincerely,

Diane Luck
