

Submitter: Michelle Alvarado

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB854

As a former teacher and mother of two, I am concerned about the direction we are heading with mass consumption and limited resources. We need our youth to be empowered to evolve and reduce human impacts on climate change. I strongly support SB 854 - which seeks to significantly expand and integrate climate change instruction across all K-12 core subject areas (language arts, sciences, mathematics, social studies, health, physical education and the arts).
