

Submitter: Barbara Davis

On Behalf  
Of:

Committee: House Committee On Emergency Management, General  
Government, and Veterans

Measure: HB2904

As a registered nurse and taxpaying citizen I am disillusioned, disappointed, and angry that my tax dollars are being spent to kill defenseless animals in the name of research.

97% of surveyed emergency medicine residency programs in the U.S. and Canada use only non-animal methods, such as medical simulators and human cadavers.

Use of animals in research is both unethical and unnecessary. With a repeated history of violations and transparency by OHSU I urge you to pass HB 2904 and to provide the funding necessary for its enforcement.
