

Submitter: Nancy Olson

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB854

I'm aged 81, so I have a very long view of the lay of the land, and it's not at all good right now. But of all the most worrisome issues we're facing in the world today—and there's a ton of them—climate change is my No. 1 concern. SB854 is an extraordinary and inspirational piece of work. The educators and students who have labored at great length putting this program together are my heroes and heroines, and I feel blessed to have this opportunity to support them with all of my heart and soul.
