

Submitter: sufi Olsen  
On Behalf Of: animal cruelty  
Committee: Senate Committee On Natural Resources  
Measure: SB85

I'm a vegetarian and many people I know are, the reason that I chose this diet is because I love animals and I don't want to support factory farms. They are cruel, cruel, cruel, animals do have feelings, and I hurt for them when they are hurt. not only is this cruel, but this is incredibly horrible for our environment . This is completely unacceptable for me in Oregon and I 1000% do not support this and do not want this in my state or anywhere on this beautiful planet.
