

Submitter: Calista Songstad

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB854

I strongly oppose this bill for so many reasons, but will focus on two. The average child in Oregon is not passing state standards for Math or English and needs their teachers and themselves focused on that issue until it is resolved.

Also, you as the legislators should stop allowing these political activists groups to hijack our children's learning time. Stop using our children.
