

Submitter: Sarah Curtis

On Behalf
Of:

Committee: House Committee On Emergency Management, General
Government, and Veterans

Measure: HB2904

We need the ONPRC to be protected. The research they do there is vital.

The staff care deeply about the about the animals' welfare. I have personally witnessed how devastated they are when accidents or incidents occur. They follow all federal reporting regulations and burdening them with additional reporting will only cut into the time and energy they spend caring for the animals.

Please support our workers and oppose HB 2904. Thank you.
