

Submitter: John Gerri Kelley  
On Behalf Of:  
Committee: Senate Committee On Education  
Measure: SB854  
Senate Bill 854

Good Morning,

My Husband John & I are in Southern Oregon.  
Bonanza near Klamath Falls.  
We have lived here for 45 years.

We oppose this Bill because we do not believe in the propaganda  
that is being forced on us and the children of Oregon.

If you are not aware...right now we are having record snow amounts  
in our area. So where is the global warming?

We are asking that this Bill be stroke down.

Respectfully submitted,

Geralynn Kelley
