Of:

Committee: House Committee On Emergency Management, General
Government, and Veterans

Measure: HB2904

I strongly oppose this Bill. This proposal does nothing to improve animal welfare and only creates a redundant reporting system. The information that is being asked to be reported is already reported at the Federal level. Creating more work for the Oregon State Veterinarians Office means more tax payer money will need to be used to support this review. I'd much rather see my taxes go to support programs that end homelessness, childhood hunger, crime and gun violence.
