

Submitter: Natalie Daily

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB551

Dear Chair Dembrow and Honorable Members of the Committee:

As a mother, educator, and social worker, I am writing to express my strong support for SB 551. Countless lives will undoubtedly be saved by disseminating information about secure storage of medications and firearms to families with children in their homes, especially given firearms are the leading cause of death for American children AND the fact that currently 4.6 million American children live in homes with unsecured weapons.

I am eager for our state to continue normalizing the conversation about safe firearm storage. Let's protect our youth so they can flourish!

Thank you,

Natalie Daily,  
Portland, OR
