

Submitter: Katherine Wood

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2455

HB2455 is a crucial step towards protecting the rights of clinicians during insurance audits. The bill ensures that clinicians are given fair treatment during audits and not unfairly penalized for minor errors or technicalities. Insurance companies should not have the power to take back hard-earned money from clinicians due to small documentation errors. Such actions by billion-dollar insurance companies can be devastating for clinicians, who may not have the financial resources to fight back. By passing this bill, we can provide much-needed protections for clinicians and ensure that they can continue to provide high-quality care to their patients without fear of unfair retaliation from insurance companies
