

Submitter: Taryne Saunders

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB854

I oppose this bill. As it would take necessary education dollars away from the purpose of school-teaching reading, writing, mathematics, etc. Not to indoctrinate our children with racial climate ideology and such nonsense to scare them into not wanting to start families and live a life full of fear. Keep it out of our schools. Our children aren't pawns for your agenda.
