

Submitter: Vickie Jarrell

On Behalf
Of:

Committee: House Committee On Emergency Management, General
Government, and Veterans

Measure: HB2904

I am familiar with the public records request Representative Gomberg submitted to OHSU. It was very broad and created an impossible burden for the institution to provide all of the records that were originally requested. The institution worked hard to narrow the request so they could provide responsive documents. While some narrowing was done, there still were multiple batches of documents released. This took hundreds of hours of work to identify and review.
