

Submitter: Joyce Michelangelo
On Behalf Of:
Committee: Senate Committee On Education
Measure: SB854

Dear Committee Members,

Our schools have a responsibility to teach our children, at a minimum, reading, writing and arithmetic. Oregon has a reputation for not performing those most basic tasks. It is important for schools to focus on their primary tasks NOW. Our student population needs to be performing in the top 10% of students across the nation before adding non-fundamental instruction to the curriculum.

Respectfully,
Joyce Michelangelo
