Committee: House Committee On Judiciary

Measure: HB3214

I support HB 3214. Subjecting animals to ridiculous acts for human entertainment is cruel and deprives them of their natural habitat and behaviors. My children cried when a relative took them to a circus. They literally could not believe humans treated animals in such a way. Circus animals are trained in violent ways and spend their entire lives in a small cage. It's 2023. We can do better for animals.

Respectfully, Karla Romano
