On Behalf Of:
Committee: Joint Committee On Transportation
Measure: HB3248

Hello,

I strongly encourage sxs being legal in Oregon. There are multiple states and communities that allow this. In southern Oregon it would open a new tourist attraction to our great part of the state. Many people could and would benefit from this. It creates new business opportunities, like tours, rentals, trail rides, and more. Being street legal, doesn't have to be every piece of pavement, it's so much more simple than that. What makes it easy, is just look at Arizona or Utah, because I've been there and the way they run things is super easy and straight forward. The SXS community has a huge following, UTV Takeover in Coosbay is probably one of the biggest events that go on in Oregon every year. And it all is the side-by-side community. I hope that you realize what this can do for our state by allowing this to happen. Please make a difference for the hard working Oregonians that enjoy this sport, lifestyle, and activity with our families.

Thank you
RICHY Luker
