

Submitter: Kevin Terhorst

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB3248

If the vehicle meets the rules and regulations of the road, they should be allowed on the road. During the winter, such a vehicle can be the only option to safely get around. Their ability to safely move around in the snow would be helpful to people who would otherwise be unable to get around. Or have to park their vehicle at the bottom of the hill and walk the rest of the way home carrying their stuff.
