

Submitter: Alejandro Gonzalez

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB3248

I am in favor of HB3248. Our state is loosing out on a lot of revenue from not allowing us to register and make our utvs street legal. There are many states that allow utvs to be street legal as they just need to meet the requirements. It would not affect our environment or cause traffic since people will not be using utvs to drive a lot of miles its more to drive a few miles to make it easier to access trails. It will also make it easier if you dont always need to trailer your utv as there is spots that aren't always easy to get around with a trailer.
