

Submitter: Robert Dudley

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB3248

Members of the Joint Committee of Transportation,

As a side by side owner and outdoor enthusiasts, I encourage you to advance and pass HB3248. Oregon has so many opportunities to enjoy the outdoors with our all terrain vehicles, but access to them with our trucks and trailers is limited and puts us in remote locations away from services such as fuel and food retail locations. There are already two locations in Oregon that local municipalities allow all terrain vehicles to travel on paved roadways, the Diamond Lake area and Lakeview Oregon. Passing this bill can lead to economic boost to many small towns and improve access for lower income outdoor enthusiasts.

Thank You, Robert Dudley
