

Submitter: Dave Peticolas

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB847

Thanks for the opportunity to provide input. I am writing in support of SB487. There are a lot of housing-related bills in consideration this year. This is absolutely appropriate given the scale of the housing crisis we are now facing in Oregon. We need a multi-pronged approach to this problem and the individual changes in this bill will contribute meaningfully to the overall legislative approach to tackling it. By making it incrementally easier to build new housing across a number of dimensions, SB487 encourages an increase in housing construction that is needed to address the severe shortfall we now face.

Please pass this bill and help end the Oregon housing crisis!
