

Submitter: Alexandra Bruckner

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB188

I am happy to support this common sense bill. I think any and all evidence should be admissible to the court regardless of how it was was obtained. If illegally obtained footage clearly shows a crime being committed, than it should be submitted as evidence. If something can testify for or against the commission of a crime, it should not be discounted because of how the evidence was obtained.
