

I am Elijah Ogoli, a sophomore at PSU.

I graduated from Tualatin HS in 2019 and attended PCC before COVID

Now I am at PSU, Career Community Studies program

I had a big impact on other people from high school and PCC and now Portland State

I wanted to come to PSU to have a bright future and to further my education and expand my goals.

I wanted to have a safer place in a community that is safe for other people when I finish school.

My goals for coming to CCS are to explore the music industry, to make new friends and to have a job.

I am working at PSU Human Resources (HR) in the filing area. At my job I sort papers into files and I scan documents to save.

Before I was at CCS, people had low opinions of me. Now, at CCS, I have a higher standing. Now, people know I can do better and be successful in life.

Thank you for the Bill 572 to be sent sooner than later to pass so I can keep going in my education. I hope my voice will be heard so other people will hear this so that people like me and anyone can know what is going on with this program.
