

Submitter: Rose Kaler
On Behalf Of: myself
Committee: Senate Committee On Education
Measure: SB768

Concerning SB 768

I strongly oppose this poorly written vague bill.

Instead, focus on how to help all Oregon Students get a better education. Oregon is ranked in the bottom third when compared to other states.

The Taxpayers of Oregon deserve to see our students graduate with a high school diploma that certifies the graduate has met basic educational needs that will allow them to enter the work force or higher education including vocational education.
