

Submitter: Jeff Lawrence

On Behalf Of:

Committee: House Committee On Rules

Measure: HB2004

Rank choice voting favors incumbents and others with name recognition and disenfranchises voters supporting change and fresh face candidates. The incumbent class have many advantages already. I have observed this Watching rank choice in other states, and seen how the Will of the people is denied as incumbents/establishment/media candidates dominate in the end. Please reject rank choice and say no to vote dilution. Preserve the individual franchise. Thank you.
