Hello,

I am writing this to ask you to please help the animals and stand with them. The circus is traumatizing to kids who have to be explained how the animals are trained to do the things they do. As a kid, I left the circus crying on numerous occasions when I was explained how these wild animals are made to do crazy tricks that would be hard for a human to do. It is natural and violence is at the root of these performances. It is almost impossible to go to a circus that uses animals and not see them being whipped or threatened. You see the small cages they travel in and you can see the sadness in their eyes.

We as humans are enough for a circus, there is no need to have animals involved at all. Please take my words into consideration when making a decision. I really appreciate the time you took in reading this.
