

Submitter: NANCY DONG
On Behalf Of: Mercy for Animals
Committee: House Committee On Judiciary
Measure: HB3214

Please consider passing the law to outlaw using animals for circuses. They are tortured, beaten, abused as young babies to comply with doing un-natural acts against their will. why? for a few moments of amusement for humans and for profit. So many studies show that animals experience pain, suffering and are impacted psychologically. What kind of humans are we once we know this and continue to support the abuse of the innocents?

BAN the use of all animals for human entertainment- unless your pet is being goofy under your loving care.

Thank you,
Nancy Dong
