

Submitter: Sue Craig
On Behalf Of: Interfaith Earthkeepers Eugene Springfield
Committee: Joint Committee On Transportation
Measure: HB3382

It is hard to see a bill introduced that overrides laws, and ordinances that have been well thought out and used for a long time. This bill has the potential to really wreck more havoc on our waterways. It will definitely disturb and alter nature in a way that is detrimental to the environment and natural space for many living beings. Please do not let this bill go forward. Sue Craig.
