I STRONGLY OPPOSE SB 923!

This bill gives public school districts the power to limit school choice for parents and students. At a time when Oregon's schools have crashed to the bottom of the list of schools in the US, we should be giving parents and students more choices, not fewer.

When the governor signs an executive order stating students don't have to know how to read, write, or do math in order to get a high school diploma, we know our school system is a disgrace. We don't need to strive for equity in education, we have apparently achieved it. We have met expectation.

The time for our educational system being an emergency is long past, and this bill does nothing to address the true issues.
