

Submitter: Paula Beckley

On Behalf
Of: Native fish population

Committee: House Committee On Agriculture, Land Use, Natural Resources, and
Water

Measure: HB3368

This policy proposal is being rushed and needs to have safeguards implemented to protect native fish populations as well as well as protections from boom and bust mentality. I implore you to bring more watershed ecologists and wildlife biologists to the table when crafting policy for the future of water use in Oregon.

Thank you for your time and consideration.
