

Submitter: Renee Windsor-White
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB3213

I write to you in support of House Bill 3213. The testing of cosmetics on animals is both cruel and unnecessary. There is a wide range of tests that can be done to verify the safety of cosmetics without harming animals. I believe that making animal testing illegal is the best way to stop cosmetics companies from continuing to use that cruel and inhumane practice. Thank you.
