

Chair Golden and members
of the community, for the record
my name is Owen Duman and
I am a student at Lourdes
Public Charter School. I am here
to support SB85 because if
this chicken farm is built I
won't feel safe outside at Lourdes
or drinking the water there. My
family raises meat chickens every
year, maybe about 20 chickens. But
this chicken farm is going to
have 4.5 million chickens. That many
chickens can pollute the air for
miles. Also this farm is right by
Thomas creek one of my favorite
places to swim. If this chicken
farm is built I won't feel safe
swimming there anymore.

I Urge you to support SB85
