

Submitter: Jeffrey Kleiss

On Behalf Of:

Committee: House Committee On Rules

Measure: HB2004

Multiple times I have wanted to vote for a non mainstream candidate (not Republican nor Democrat). I felt that I needed to vote for the main stream candidate or my vote would be lost. I didn't expect my candidate to win, but show my support. Then have my vote help elect my preferred candidate that had a chance to win. Rank Choice Voting would allow me to show my true desires and support, while helping to diversify the candidates that run for office.
