Measure: HB3214

I urge you to pass HB 3214. Animals in circuses are cruelly trained, often taken from their mothers in the wild and spend their entire lives in a cage. This is no way to treat animals in the year 2023. Circus animals never have an opportunity to exhibit their natural behaviors, endure psychological trauma to perform tricks and live in solitary confinement. Circus animals belong in sanctuaries. Make a humane decision and pass HB 3214. Thank you, Aaron Romano
