

Submitter: Shelly Thompson

On Behalf Of: Voting Americans

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2665

If you vote yes on this bill, it will prove that when you claim to support unions and working class Oregonians, you are lying. Nursing unions use the higher pay scale of agency and travel nurse contracts to argue for higher base pay of hospital staff. You are knee capping their ability to negotiate a fair wage. How dare you look at our broken healthcare system and point the finger at nurses. Shame on you for supporting this bill.
