

Submitter: William Dongs

On Behalf Of: Nurses

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2665

Setting a wage cap on hospital executives? No

Setting a wage cap on hospital administrators? No

Setting a wage cap on Physicians? No

Setting a wage cap on hospital lawyers? No

Setting a wage cap on hospital consultants? No

But setting a wage cap on nurses? Oh yeah, sure that makes sense. Let's spit in the faces of the backbone of our already decimated healthcare system.... That will for sure fix everything, and stop nurses from leaving the profession.....

Stop being willfully ignorant if you think nurse wages are the source of the rising costs of healthcare....

Vote NO! Do the right thing for the working people of Oregon.
