Measure: SB4

I would like to see an education center put in on the site of the Kmart located on NE 122nd and Sandy Blvd. It would be much superior to a warehouse with many trucks coming and going on a continual basis. The noise pollution and air pollution are merely two of the drawbacks of having a warehouse there.

I have lived in Argay for 9 years and it's a good place to live, especially with the new Luuwit View park that was developed here in 2016. It's a gathering place for many people and the presence of the truck traffic mere blocks away would not be good for people or trees.

There are many better places for a warehouse of this kind to be located. We need to start putting the needs and health of people before corporations and profit.

Thank you.
